a lonely landscape

bone-white moon.  
frog disappears down  
the night-heron's gullet.

soft *splash* of red rubber rain boots  
in the marsh-water.

homey hint of rot  
in the humid heavy air.

who goes there?

like eggshells underfoot.  
like marrow on the tongue.  
like winter in the hand.

heartbroken wind.  
mosquito fat with blood  
flees the hunting bat.

"The test of a first-rate intelligence is the ability to hold two opposed ideas in the mind at the same time, and still retain the ability to function. One should, for example, be able to see that things are hopeless and yet be determined to make them otherwise."
